

And the Urban AG Council Winner Is ... Bennett Design & Landscape

Bennett Design and Landscape was recognized last week at the 2014 Urban Ag Council Award presentation for two landscape projects. They received three awards including the Judges

Award given to five of the most outstanding projects of the year.

Award 1 - Project Challenge: Create visual interest in narrow lot, add privacy and multiple areas for outdoor living.
Solution: Asian gates gave depth to the yard and a dramatic focal point. Evergreens set off the bold color scheme where elements of fire and water were brought into lounging and dining areas to complete the Zen garden feel.

Award 2 - Project Challenge: Incorporate existing deck on Midtown High-Rise into complete redesign and installation.
Solution: Created secondary deck complete with outdoor kitchen, stone fountain, and several seating areas for dining and lounging. Greenery and vibrant bursts of color softened hard surfaces using low maintenance materials.

Urban AG Council - Georgia's Premier Green Industry Association

For professionals in the urban agriculture industry, the Urban AG Council is the top association for all sectors of green business including landscape design, maintenance and installation.

David Bennett receiving multiple UAC Landscape Design Awards

These award winning projects showcase what we do best - address your challenges with considerate and beautiful landscape solutions. Thank you for letting us do the kind of work that is not only recognized but also deeply meaningful.
